

MONSTERS OF MOCK

From the creator of Hairball comes a new concept to the art of imitation we have come to know as The Tribute Band. Not one, not two, but three tributes put together in the same night. Featuring the look and sounds of Bon Jovi, Motley Crue, and Guns N Roses, Monsters Of Mock brings together veterans of nationally touring tribute bands to deliver a full evening of non-stop hits that will recreate the party atmosphere of the 80's. Danny Wilde (Paradise City, Bon Giovi, and Wild Side) on vocals comes to Minnesota to combine with drummer Johnny Strutt (Wild Side, Bad Animals), Bassist Pat Cormany (Wild Side, Schools Out) and Minneapolis standout guitarist Krister Pihl (Cains Alibi, Gemini) to form Monsters Of Mock.

No longer will audiences have to sit through another opening act as Monsters Of Mock delivers nothing but the hits from the start of the night until the bouncer yells GET OUT! No more b-sides, no more deep album cuts to cover time and no drawn out solos. Pure beef with no fillers Monsters Of Mock is built for your enjoyment pleasure. So grab that can of hairspray and put on your make-up, the party is coming to town.
